

## **FCCB Launches New Products**

Four Corners Community Bank (FCCB) is pleased to announce that as of April 18, 2016 the following upgraded or new products are now offered to all customers. If you have any questions about any of these products, please feel free to give us a call at 855.547.3222.

**Upgraded Bill Pay:** Our Bill Pay platform is completely redesigned and includes improved payment options for both consumers and businesses. You can now pay virtually any business or individual with a mailing address within the United States and Puerto Rico. For example, you can pay utilities, cable bills, credit cards, or individuals such as a landlord, babysitter, or relative via online or mobile banking. And as always, it's safe, secure, and easy to use. New features include payments to an individual, eBill or electronic bills, gift pay, expedited pay, and more. New business Bill Pay features include payroll automation functions, audit info such as customized reports, and payee import from QuickBooks or Quicken. New Bill Pay users can enroll by clicking "Bill Pay" within online or mobile banking.

**Remote Deposit:** Save a trip to the bank! Now you can make check deposits remotely with Remote Deposit via online or mobile banking. This feature allows you to take a photo of a check with your smartphone, tablet, or flatbed scanner, and deposit it directly into an FCCB account. New and current FCCB customers are eligible to use Remote Deposit after they've held their account(s) in good standing for 90 days with no overdrafts or returned checks. If you are eligible, you can submit a registration request by clicking on the "Make a Deposit" tab within mobile banking.

**Direct Connect for QuickBooks and Quicken:** Current QuickBooks and Quicken users can now select FCCB from their online banking setup within their software for real time inter-connectivity. This allows you to securely interact with your account(s) to download or upload financial information directly to QuickBooks or Quicken. Features include no manual data entry, automatic data reconciliation, duplicate transaction prevention, and greater ease of use. You must have your own QuickBooks or Quicken software to use Direct Connect.
